

Roll Vent® CONTINUOUS RIDGE VENT

PRODUCT DATA

TAMKO® Roll-Vent® is a continuous ridge vent designed to properly ventilate attic space when used in conjunction with soffit vents.

USES

For application to roof decks with inclines of not less than 3 inches per foot. For slopes above 12 inches per foot, call for technical support at 1-800-641-4691.

ADVANTAGES

- 18 square inches (0.01 sq. meters) of net free area per linear foot
- Comes with up to a 50-year limited warranty from TAMKO
- See-through hinge for easier centering over the ridge
- Innovative design provides effective shingle-over ventilation. Nylon 6 plus carbon black for U.V. resistance with non-woven nylon polyester weather barrier
- 2-1/2" nails and nail line provided for ease of installation
- Lightweight, easy-to-cut material eases installation and helps reduce labor
- Compression-resistant design creates a stiffer nailing area
- Requires no special tools, baffles, metal connectors, end caps or special filters, simplifying the installation process.
- Breathable weather barrier to prevent rain, snow and insect infiltration

CERTIFICATIONS/REPORTS

- Florida Building Code approved

REQUIREMENTS

- Must be used with an equal or greater amount of soffit ventilation
- Minimum 3/12 roof pitch (up to 18/12)
- Use with standard 12-inch wide cap shingles
